TICKETINO.
Everybody's Ticketing

Ticketing and guest management at fair conditions!

For congresses, seminars & symposia
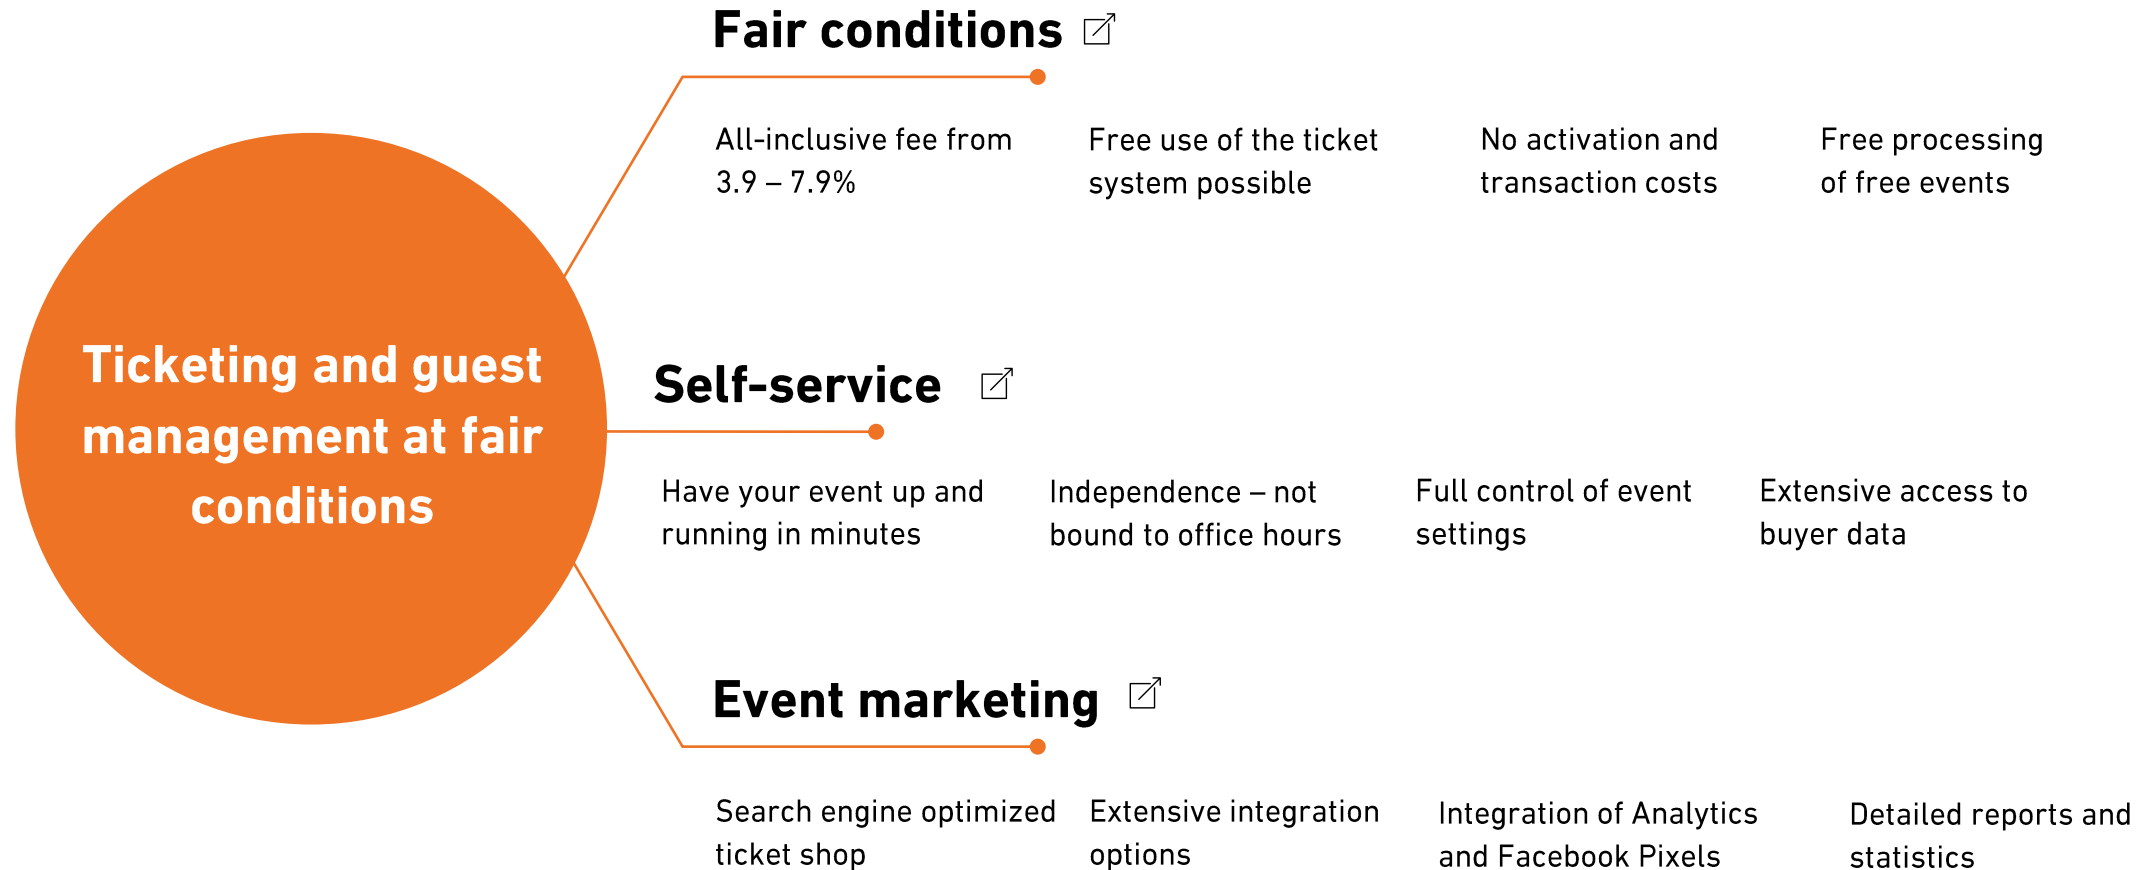

Contents

Our Mission

We love to unite people – be it through congresses, seminars or symposia. That's why we believe that both big and small events deserve only the best. For this reason, we offer event organizers and ticket buyers the easiest possible self-service platform with extensive functions at fair conditions and without activation fees. **TICKETINO is Everybody's Ticketing!**

The TICKETINO Strategy

Ticketing and guest management at fair conditions

Fair conditions ↗

All-inclusive fee from 3.9 – 7.9%

Free use of the ticket system possible

No activation and transaction costs

Free processing of free events

Self-service ↗

Have your event up and running in minutes

Independence – not bound to office hours

Full control of event settings

Extensive access to buyer data

Event marketing ↗

Search engine optimized ticket shop

Extensive integration options

Integration of Analytics and Facebook Pixels

Detailed reports and statistics

Functions ⬈

Thanks to its extensive functionality, the TICKETINO system is always the right choice! We support your event from A-Z.

Event creation

In the self-service cockpit, you always have a full overview of your entire ticketing and event management
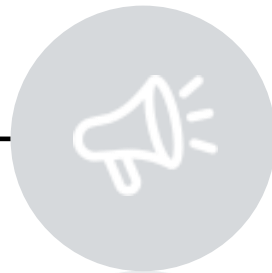

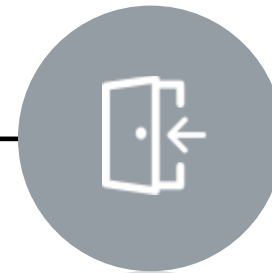

Marketing

Reach your target groups with diverse advertising measures

Distribution

Sell your tickets online, via call center or through more than 1000 ticket agencies

Admission

Receive your guests with the TICKETINO hardware or with the ScanApp for smartphones

Additional services

Benefit from many additional functions and offers at unique TICKETINO conditions

Before the Congress

Flexible Guest Management

Integrate TICKETINO solutions for guest management into your own website via link, button or iframe

Import addresses and invite your target group quickly and easily by email

Tickets, name cards, etc. are adapted to the individual design guidelines (CD/CI) of the organizers

More Flexibility through Self-Service

Thanks to TICKETINO's self-service system, you are always in control of all settings.

- Create and edit events independently

- Full access to event and ticket buyer data

- Free creation of seatmaps and independent management

- Flexible generation of Promotion Codes

- Download of detailed evaluations

- User management with multiple logins
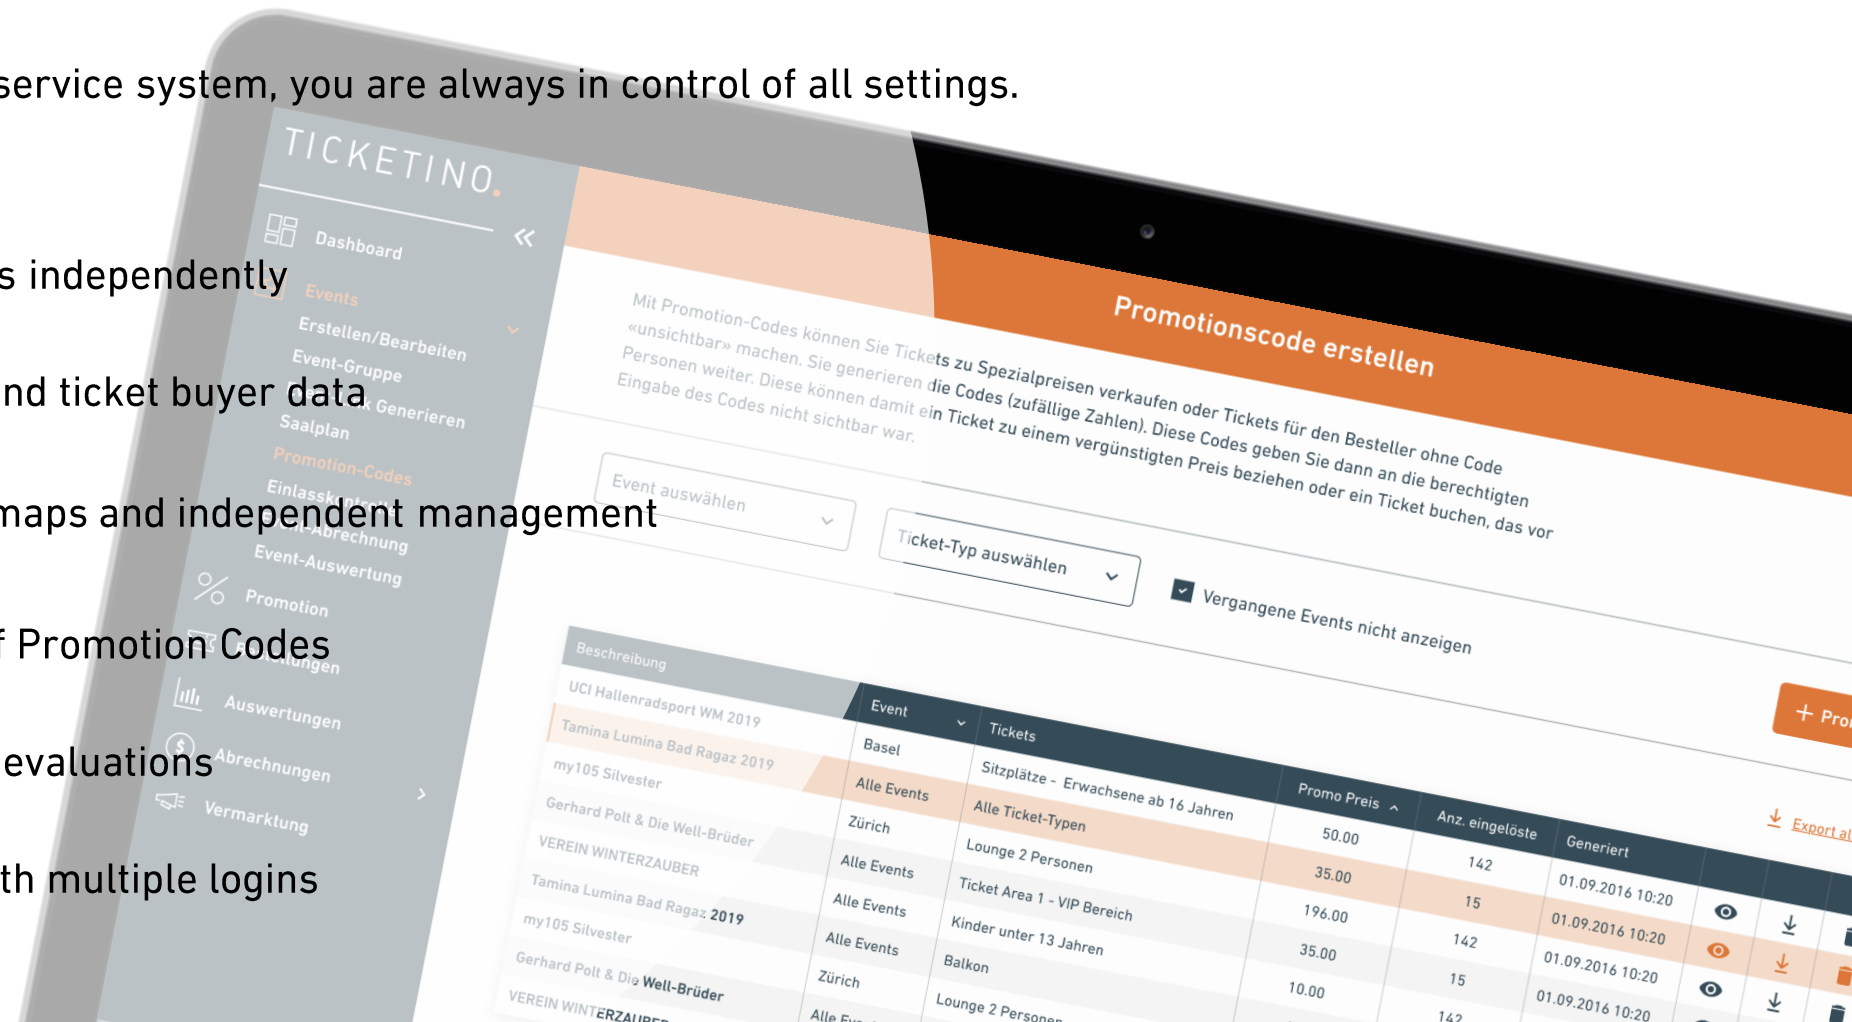

Professional Registration Process on Your Website

Adapted to your corporate design or corporate identity! Individual registration forms & customized solutions for the integration of the registration form on your own website:

✓ Standard shop as link, button or iframe

✓ Customized registration form as link or iframe

✓ Customized landing page with registration form

✓ Registration form with session booking

Landing page

Registration form

Examples of Iframes

Types of Tickets – As Unique as You Are

Our organizers have free choice of the ticket image – they can choose to upload a picture of the event, directions, vouchers or an event calendar of upcoming events. The ticket image can also be used as advertising space for sponsors. In addition to print@home and mobile tickets, there are numerous other options:

✓ Print&Fold tickets

✓ Box office tickets

✓ Name cards

✓ Conventional tickets / vouchers with ticket blanks

✓ RFID cards

✓ RailAway combination tickets for major events

Flexible Promocode Functions

With the versatile promocode function, you can easily and efficiently generate more reach and visitors! Promocodes can be used, among other things, as a sales promotion measure, for customer loyalty and for vouchers and partner tickets.

✓ Discounts

✓ Free tickets

✓ Voucher events

✓ Limited ticket promotions

✓ Tickets for partners & sponsors
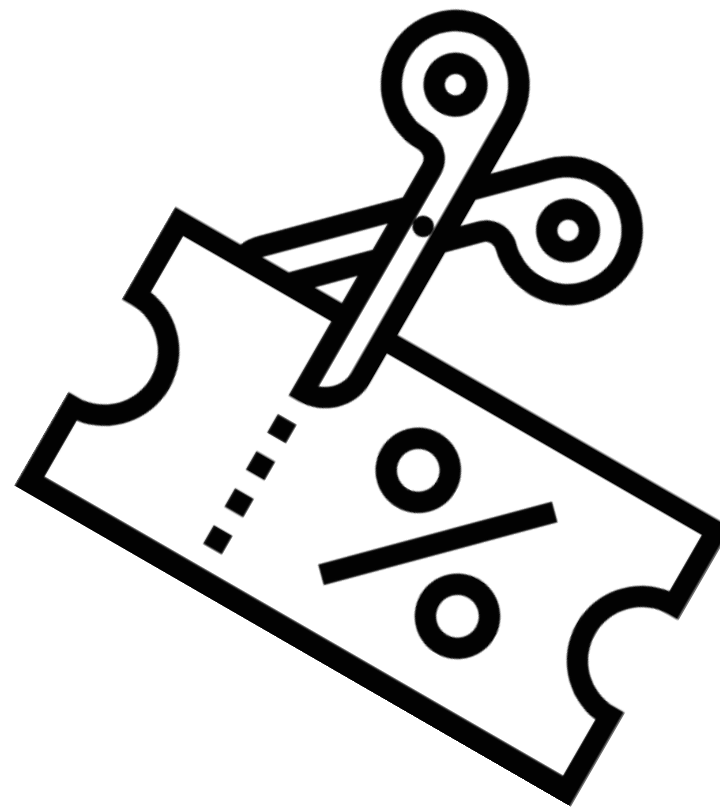

During the Congress

Efficient Solutions for Admission Control

Benefit from various possibilities to welcome your guests in a relaxed atmosphere before the event. We provide the infrastructure with professional admission equipment.

✓ Handy ticket scanner

✓ Excel list

✓ Online badging directly on site

✓ TICKETINO ScanApp

✓ TICKETINO PC or browser client
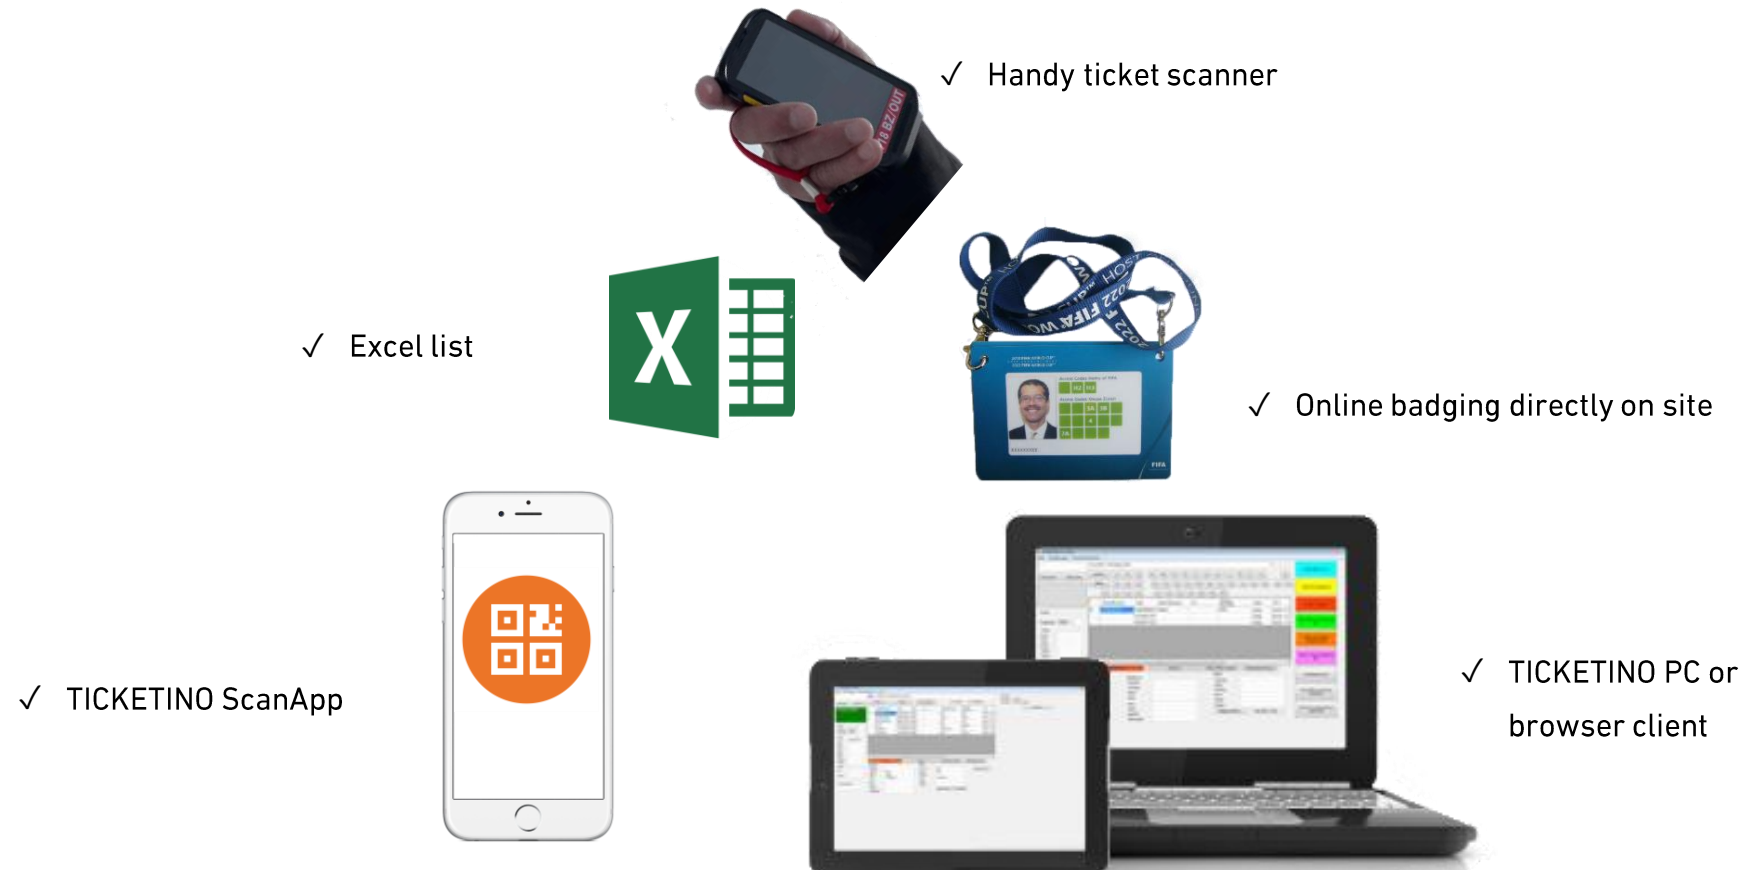

Admission Control & Name Card Printing On-site

On-site Accreditation

✓ Enter new applications quickly

✓ Print personalised badges on site

✓ All participants are stored in the system

✓ Flexible adjustment of all personal data

✓ Highest security through special printing processes of security features

Smooth Guest Reception

✓ Scan registration confirmation and enter it into the system

✓ Adapt registrations on site

✓ Various scanner models available

After the Congress

Detailed Evaluation & Accounting

After the event, TICKETINO supports you with the following services:

✓ Detailed statistics

- Exact recording of booking and entry data

- Visible in the cockpit at all times

- Export of all data and lists to Excel

✓ Detailed collection accounting

✓ Access to event and customer data

- Export of address database

✓ Analyses for event follow-up

- Conclusions on buying behaviour

- Adaptation of communication and media planning
